## About me

I am Front-End Developer, I have been working since 2017 in different companies as a Markup Developer, where I built site designs. list of sites: sangu.edu.ge  geoukravit.ge  afalona.eu  raizomat.com  etscars.com  and  automations.ge

## Skills

HTML  CSS  JAVASCRIPT  REACT JS  NEXT JS  TYPESCRIPT

SCSS  BEM  OOCSS  BOOTSTRAP  JQUERY  GIT

## Experience

**DUCKSVEGAS.COM - Online Crypto Casino**                    2022

DUCKSVEGAS.COM - My first project where I worked on React.

**PROWAY.GE - Software Company**                    2021

I built two very interesting projects in the company:

LAWPORT.GE  - An online platform for lawyers that I built from start to finish, where I used scss, bem, javascript, jquery

BROKERAPP.GE  - Insurance packages platform which is built from start to finish by me. I used scss (function), bem, javascript, jquery

**CROCOBET.COM - Online Casino**                    2020

At the company, I did the weekly stock pages and processed the data from API into Javascript
Also, I worked on mobile bet ticket in Angular

**WANDIO.COM - Software Company**                    2019

ONOFF.GE  - One of the big online stores I worked

## Projects

TENDERS.GE  - Tender announcement platform, which is built from start to finish by me, and which was order. I used javascript, jquery, scss (function)

VEYVEY  - [veyvey.gelashvili.info] - A booking platform similar to Airbnb is built from start to finish by me and was ordered by Mywebsites.com. I used scss (function), javascript, jquery, bem method

ONLINE SHOP  - [shop.gelashvili.info] - I made an online store platform from start to finish that was ordered by Itemssphere. I used scss, bem, javascript, jquery (mobile)

ANTMOTORSG.COM  - Car import company, which is built from start to finish by me, and which was order. I used React JS

GEORGEZU.COM  - Interaction Designer, which is built from start to finish by me, and which was order. I used scss, bem, javascript, jquery
